Folding Machines

SBS 1020/2,5

SKU : 131364

The folding machines of the SBS series are used for bending thin sheets. Due to their compact design, they fit easily into small workshops and cover a wide range of applications with their segmented upper tool. With an adjustable angle stop, these folding machines are also suitable for the production of small series.

- Compact and torsion-proof
- Segmented male die for many bending possiblities
- Built-in , manual bending compensation
- Adjustable angle stop for batch production
- Foot switch for top tool clamping for hands-free use

TECHNICAL SPECS

WORKING AREA

Working length	40 in
Plate thickness (max.) - 400 N/mm²	0.098 in
Bending bar angle (range)	135°

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	54 in x 34 in x 47 in
Weight	627 lbs

PRODUCT DETAILS

- For formed component bending
- Compression spring for top counterbalance
- Cam lock and rebound spring for bending beam counterbalance
- Bow handle for bending beam rotation
- Adjustable bending angle stop with scale up to 135°
- Segmented top beam tools
- Segment size: 1", 1.2", 1.375", 1.5", 1.75", 2", 3", 4", 6", 8", 10.5"

STANDARD EQUIPMENT

Segmented male die
Operator manual
