

Press Release - KNUTH at Elmia Machine Tools, Jönköping/ Sweden – May 10–13, 2016

TURNING AND MILLING FOR ADVANCED USERS

KNUTH Machine Tools from Germany presents its mineral-casting CNC machine series and conventional machine tools

KNUTH Machine Tools is a global industry leader with a comprehensive product portfolio encompassing 2,500 machine tools and accessory products. **Made by KNUTH** stands for continuous innovation and proven machine tools, servo-conventional machines, cutting systems, and CNC machines.

This concept has brought us many years of success and enables KNUTH to efficiently implement custom technical solutions and quickly get them ready for series production. KNUTH machines with mineral-casting frames play an important role in this.

KNUTH mineral-casting machines offer state-of-the-art technology on a solid foundation - offering you a great advantage and reliable production solution.

Mineral-casting

- Dampens vibrations
- Provides thermal stability
- Torsion-proof under high loads
- Robust and rust-proof

The following machines will be demonstrated at our booth:

- The Vertical Machining Centre [X.mill M640](#) was designed to meet the most demanding requirements in milling of various types of materials. Thanks to its robust and rigid body that is based on a high-end mineral frame, vibration damping performance has been increased six-fold over standard cast-iron.
- For clients requiring high-precision solutions for their workshops, we offer the [Servoturn 410](#) Lathe, which combines the best features of servo and conventional models and is built on an extra rigid mineral-cast bed.
- Last but not least, we will show our bestselling CNC Lathe, the [Roturn 320](#), equipped with Siemens SINUMERIK 808D – indisputably the best solution for educational and training purposes

We are looking forward to meeting you in Jönköping!

About Knuth Machine Tools

KNUTH Machine Tools is a leading supplier of conventional and CNC-controlled machine tools. The great success of our business is based on highest quality standards, technology

innovations, decades of experience and very competitive pricing. Our network of German and international branches and dealer locations ensures worldwide accessibility for our

customers at a local level, market-covering presence, expert consultation and prompt service. For detailed information and specifications on our complete portfolio, please browse the KNUTH website at www.knuth.de.
